## CHAIRMAN'S CORNER

Chapter Members,

2007 should be a year of continued pursuit of a new agenda for our industry. Under the tireless leadership and energy of Bob Johnson, all of our members have spent the last few years forging relationships with law enforcement folks and have made real differences in the delivery of security and the value we bring. It does not matter if we are proprietary or contract, or if we are vendors of electronic technology, room at the table has been made heretofore never experienced.

We owe Bob a debt and sincere thanks for his efforts on our behalf and that of all whom we serve. His shoes are big ones to fill and it will take a committee of people to do what he has done alone. Let us use our time wisely and his example as a guide for the future of the chapter. We will continue what he began and pursue other projects that will further enhance our ability to remain well within the fabric security community.

Thank you,  
Michael Brugnoli
